

Choose Your Career Wisely

Most students are confused as to what career line they should chose after 10 Std. Some follow what their parents say, some follow their friends thus ignoring their own talent pool. The test helps in guiding the students of high school to assess, evaluate and know themselves better to make a proper choice of career which will give them success in future and happiness. The above Aptitude test measures your abilities, your interests, your skills and your personality factors to help you make the best choice of career most suited to you.

Once you fulfil the formalities of paying the charges online to the bank account mentioned, the id and password will be sent to you by email and you can take the test online on [my website](#) . Once done you will be sent your report within a day or two. After that you are eligible for an expert counselling session with me for 35 minutes through telephone or through skype which ever suits.
